DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 7-9, drawn to “a method for receiving from a selected user an order for a specified item.”
 - II. Claims 2-6 and 10-12, drawn to “a method for displaying to a selected user a list of items purchased by the selected user.”
 - III. Claims 13-24, drawn to “a method for receiving input from a first user to display a page describing a selected product.”
 - IV. Claims 25-43, drawn to “a method for notifying a first user about purchase made by a second user.”
 - V. Claims 44-49, drawn to “one or more computer memories collectively containing a purchase sharing data structure for a selected user.”
 - VI. Claims 50-56, drawn to “a method for displaying to a selected user information about items purchased by other users associated with the selected user.”
 - VII. Claim 57-66, drawn to “a method for sharing purchasing information using a default sharing flag associated with a selected user that may be either true or false.”

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, IV, VI, and VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each

other if they are shown to be separately usable. In the instant case, invention I has separate utility such as receiving from a selected user an order for a specified item.

See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-VII and because these inventions have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
